PRICE, FIVE CENTS

PEACE REIGNS SUPREME.

The Germans Much Elated Over the Result of the Czar's Visit to Berlin.

But the Russians Say their Ruler Has Been Out-Witted and Are Angry.

Emperor William's Visit to Humbert—His Call on the Sultan—The Address to the Reichstag.

[Copyright 1899 by New York Associated Press] BERLIN, Oct. 19.—The agreeable impression left by the czar's visit still prevails here. It is now definitely known that Bismarck's persuasive representations succeeded in eliciting from the czar an expression more friendly to himself and to Germany than the chancellor expected. Before leaving for Friedrichshagen Bismarck received several of the leading diplomatic representatives, and in conversation referred to the peaceful inclinations of the czar. The czar, he said, assured him that Russia would not provoke war, and especially would never begin war against Germany.

Advices from St. Petersburg refer to the excited alarm of the Pan-Slavists because the czar has been again outwitted. DeGiers, whose position is threatened by the growing influence of Gen. Daschhoff, is reported as writing on the margin of the report sent him regarding the Berlin interview: "This wants something—the name of the Russian diplomat who cleaned Bismarck's boots." This remark is directly pointed at Daschhoff, who remained here several days after the czar left and had a long conference each day either with the czar or Bismarck. The safe arrival of the imperial party at Gatchina relieved the official mind here, which could not help being affected by the nervous anxieties pervading the czar's whole entourage. Count Schouvaloff showed himself infected. This fear has caused large sums to be uselessly expended at the old Schloss and palace at Potsdam for securing the isolation of the czar if he should stay at either the Gatchina or Bismarck. On the 14th the emperor William and the empress at Monza Margaret received them at the station and drove them to the castle, an escort of cavalry and troops lining the route.

The official programme for Emperor William's visit to Constantinople is published. The emperor arrives at Constantinople November 11, on the third the Sultan gives a reception at Yildiz Kiosk, followed by a banquet. On the 4th the emperor attends service at the Protestant church, and later in the day there will be a reception at the Gernik here, his name never having been mentioned in connection with the place. The appointment is generally conceded to be a good one.

Raum Gets the Plan.

WASHINGTON, Oct. 19.—The president today appointed Green B. Raum, of Illinois, commissioner of pensions. Gen. Raum served with distinction through the rebellion on the union side, was a member of congress from 1867 to 1869, was commissioner of revenue from 1876 to 1883. The appointment, though a surprise, is generally favorably commented on. He is a prominent member of the G. A. R.

Gen. Raum appeared at the pension office this morning, and after taking the oath of office was presented to the chiefs of divisions and other officials. He will enter upon his official duties Monday. The appointment of Gen. Raum as pension commissioner was an unqualified surprise to politicians here, his name never having been mentioned in connection with the place. The appointment is generally conceded to be a good one.

Do Not Favor Chinese Immigration.

CHICAGO, Oct. 19.—The convention of the inter-seminary alliance closed today. Under the head of miscellaneous business Mr. Hilliard, of the Chicago seminary, threw a bomb into the convention in the shape of the following resolution: Whereas: The United States law forbidding Chinese immigration is harmful to missionary work in China, resolved, that the United States congress be requested to repeal said law. A dozen delegates wanted to speak at once, and when order was restored the resolution was put to a vote. It was tabled indefinitely.

Treaty With the Iowas.

GETTHERIE, I. T., Oct. 19.—The Indian commission held a conference today with the Iowa Indians on the Iowa reservation. Gen. Fairchild explained the desire of the government to purchase the reservation and allot all the lands in severalty to members of the tribe. The chiefs consulted all the afternoon without reaching a decision in the matter. The commission leaves for See and Fox reservation to-morrow, and will stop on their return for a second consultation with the Iowas.

It Has His Sympathy.

WASHINGTON, Oct. 19.—The president has written a letter to the chairman of the Boys and Girls National Home and Employment association, in which he says the object of the association have his warmest sympathy. They should, he says, have the intelligent support of the national congress and state legislatures in the appropriate sphere of each. What is done to promote patriotism and good citizenship in the neglected classes must be done before the habits of vice and pauperism have become settled.

Heavy Internal Revenue Receipts.

WASHINGTON, Oct. 19.—Receipts from internal revenue during the first quarter of the present fiscal year were \$34,885,000, or \$3,471,000 greater than for the corresponding period of last year. At this rate the receipts for the year will be \$125,000,000, or \$14,000,000 greater than last year.

Night Unto His Death.

NASHVILLE, Tenn., Oct. 19.—Congressman W. C. Whitmore, of the Seventh district, and at one time chairman of the committee on naval affairs in the house of representatives, is lying at the point of death at his home in Columbia, Maryland.

WANT AN INVESTIGATION.

The Boston Stockholders in a Utah Mine Not Pleased With the Outlook.

BOSTON, Oct. 19.—There is decided embarrassment in the affairs of the Hoerine Mining company of Utah. It is said that Mr. Howe and Charles Keveney have repeatedly during the past two months requested the books from Treasurer Murray, but say they have been stoutly refused their lawful right to investigate the standing of the company. Keveney, as a last resort, recently appealed to one of the heaviest stockholders of the company, Wilson W. Fay. At the meeting of the stockholders of the company at Portland, Me., some time ago, Fay was instrumental in the appointment of a committee to investigate the affairs of the company. It was thought by Fay that the affairs were not all right, and an investigation was necessary and demanded. Fay said this afternoon, "I have decided no longer to allow certain men holding the books of the Hoerine Mining company to refuse to place them in the hands of Mr. Keveney, as auditors. They have bulldozed us long enough. I, as the holder of 40,000 shares of the stock, demand that the report of certain significant rumors be proved true or false. Many believe there is trouble ahead and if any state prison offense has been committed we must know it."

The case was reported to the superintendent of police this morning and the police department will render all the assistance possible. Treasurer Murray is employed as a clerk in the office of Bradley, Hastings & Co., Fort Hill square, iron merchants.

THE EPISCOPALIANS.

At a Discussion Over a Resolution Changing the Communion Service.

NEW YORK, Oct. 19.—The Episcopal convention considered routine matters till noon and then took up liturgical revision. Final adjournment is fixed for next Thursday. In the afternoon session a storm was created by the introduction of a resolution "That there shall be no celebration of the Lord's supper except there be someone to commune with the priest." Dr. Huntington at once moved that the house non-concur, saying the proposed resolution was thoroughly pernicious. "It is," said he, "precisely in a line with the doctrines of the Church of Rome." The matter was discussed at length, and was defeated by a clerical vote, the lay delegates being clearly in favor of it.

OUR BRITISH COUSINS.

Lord Stanley's Trip—Misses Pauncefoot's Increased Powers.

OTTAWA, Ont., Oct. 19.—It is expected Lord Stanley, of Canada, governor general, will arrive at Victoria, B. C., November 1. After remaining there three days he has decided to take a steamer to San Francisco and return home over the Union Pacific. He will visit all the leading cities along the line and probably Washington.

Sir Julian Pauncefoot, British minister at Washington, returns to the United States clothed with the authority to open negotiations for the arrangement of a new extradition treaty between the United States and Great Britain; also to arrange preliminary matters for re-opening the fisheries question and the adjustment of the Behring sea difficulty. From what can be gathered from the state department here, Secretary Blaine intimated to Lord Salisbury his willingness to dispositionally review the matter informally before they are formally taken up for final adjustment.

In Hoosierdom.

SOUTH BEND, Ind., Oct. 19.—The Pan-American reached here this morning and were shown through Studebaker's great carriage and wagon factory and other enterprises.

In the afternoon the delegates attended a luncheon at the home of Clem Studebaker, where gay decorations concealed in a slight measure the havoc wrought by the recent fire. After visiting Notre Dame university the party started for Chicago.

Passengers Escape.

CONNELLSVILLE, Pa., Oct. 19.—This morning one of the construction trains on the Oakland railroad, while running at a slow rate near Confluence, Pa., was derailed. It went into a ditch and another car loaded with steel rails crashed upon the top of it. James Fitzpatrick and James Williams were instantly killed. Three laborers were slightly injured, but the others escaped miraculously with slight cuts and bruises.

Acknowledge the White Man.

BRUSSELS, Oct. 19.—Mail from the Congo state contains a report made by the governor-general to the effect that eighty chiefs have recognized the authority of the Congo state and have promised to furnish men to assist in maintaining order and suppressing human sacrifices.

The Children Shall be Free.

ZANZIBAR, Oct. 19.—The sultan has given the British consul a written promise that all children in his dominions after the first of January shall be free. This is considered the greatest concession that the sultan has ever made to a European power.

Mr. Newman Will Take the Place.

ST. LOUIS, Oct. 19.—The rumor that W. H. Newman, late vice-president and traffic manager of the Missouri Pacific, is to take the position of second vice-president of the Chicago & North-western, is confirmed here today.

Chief of the Navigation Bureau.

WASHINGTON, Oct. 19.—The president today appointed Capt. Francis Russey chief of the bureau of navigation of the navy department, vice Capt. John G. Wilker.

How the Banks Stand.

NEW YORK, Oct. 19.—The weekly bank statement shows a reserve increase of \$1,625,000; specie increase, \$2,635,000. The banks hold \$916,000 in excess of the 25 per cent. rule.

JUST LIKE A FINE NOVEL.

Mississippi Republicans Issue a Picturesque Address to the People of the Country.

Mr. Chalmers Withdraws and the Opportunity is Used for All It is Worth.

One of Mr. Quay's Schemes to Prepare the Country for Senator Sherman's Disfranchising Bill.

NEW ORLEANS, Oct. 19.—Times-Democrat, Jackson, Miss., special: The republican state executive committee met here today to consider the withdrawal of Gen. Chalmers from the head of the state ticket. The committee issued the following: "As republicans of Mississippi we are compelled to withdraw our state ticket. We know our votes would be stolen and our voters driven from the polls, but we hoped in the larger towns and cities, at least, a semblance of free speech might still remain to us; but our candidates are not allowed to safely discuss or protest. We desired especially to go before the whole people of the state and challenge the democrats to a comparison of principles and records. When the armed revolution of 1875 wrested the state from us, Mississippi was the only southern state unburdened with a state debt. She has a democratic one today. Mississippi is governed by a minority despotism, and we appeal to our country for redress. The constitution that we adopted is the only one in the south so satisfactory that it has not been changed. Our laws stand substantially unchanged and unrepudiated, but we are republicans, and this is our offense. For fourteen years, ever since the infamous Mississippi plan was adopted, our path has been marked by the blood of our slain. Not only well known leaders have bravely died, but faithful followers, known only in the cabins of the lowly. We refer not only to such well known slaughterers as Kenner and Copiah, Clinton and Carrollton, Wabholan and Vicksburg, Yazoo City and Sallare, but to the numberless killings by creek and bayou, on the highway and by the highway. These are the democratic arguments which crush us. We can do no more. We dare no longer carry our tattered, blood-stained republican flag. We appeal to the nation. Is national law and honor but a delusion and a snare? When we rely upon the guarantees of the national constitution do we but lean upon a broken reed? If so, announce the policy boldly and acquit us of further effort."

THE REPUBLICAN METHOD.

Republican Frauds Perpetrated in Custer County Before Election Day.

MILES CITY, Oct. 19.—[Special.]—Silver Bow county is not the only place where republican fraud is apparent. In Custer county, from the commencement of the campaign, the republican managers resorted to the most questionable transactions, that their party might be successful in the county. The republican board of county commissioners, in every instance where practicable, appointed a republican registry agent, and many of these agents, instead of remaining at their office during the time prescribed by law, were out in the country with their books soliciting republicans to register, and more than one demagogue was deprived of the right to register, after traveling forty or fifty miles for that purpose, by reason of the fact that the agent was not to be found where he was obliged to be by law.

STRUCK BY A TRAIN.

Alexander McKennie, the Bridge Builder, Killed on the Northern Pacific.

BERMACK, Dak., Oct. 19.—[Special.]—Alexander McKennie, aged 35, the well known bridge builder of the Northern Pacific road, was struck by this afternoon's west bound train and instantly killed.

ROASTED TO DEATH.

Terrible Fate of a Young Man in Greenville, Ala.

GREENVILLE, Ala., Oct. 19.—This morning a quarrel between a negro and a young white man named Roberts resulted in the negro pouring gasoline over Roberts. Another negro touched the fluid with a lighted lamp and in an instant Roberts was enveloped in flames. He ran wildly up and down the street and was literally roasted alive. One of the negroes has been arrested.

THE LUCK OF A MAINE MAN.

BIDDEFORD, Me., Oct. 19.—Cyrus P. Berry, an employe in the water power machine shop, has received information of the death of an uncle in California by which he will come into possession of a million dollars. The deceased uncle was Silas Emerson, of Mountain View, Cal., who went to that state from Harrison, Me., at the time of the gold discoveries. He leaves property estimated to be worth \$10,000,000.

THE GREAT COPPER BELT.

New Discoveries of Rich Veins Near Butte, Causing Much Excitement in That City.

The Butte & Boston Pushing Work on Its Claims, With a Splendid Outlook.

Review of Doings in Helena Mining Circles the Past Week—Latest Stock Quotations.

BUTTE, Oct. 19.—[Special.]—Great interest is excited in Butte in the development of the big copper veins of the Butte & Boston and Boston & Montana copper companies. Recently excellent copper veins have been discovered in the hills across the flats a mile and a quarter east of the copper developments of the Anaconda, Boston & Montana and Butte & Boston companies. This gives rise to a strong presumption that the big copper veins run across the flats. The Butte & Boston company began today to sink a two-compartment shaft, just west of the Silver Bow mill, this shaft is 700 feet east of the present shaft on the Silver Bow vein. It will be sunk at once to the depth of 175 feet, at which point it will be on a level with the 300-foot level in the Silver Bow shaft. A cross-cut will then be driven north to cut the Silver Bow vein. The Butte & Boston owns property clear across the flats and up to the mouth of Park canyon. The developments now begun will certainly develop the Silver Bow vein 700 feet east of the present workings. Bearings will be taken then and a shaft sunk 1,000 feet further east, or away out on the flats, and crosscuts driven to find the vein. The Butte & Boston is one of the greatest companies in the camp. It has unlimited backing, and is proceeding in a most conservative and workmanlike manner. It is excellently managed, and there is little doubt that before long it will have developed one of the greatest copper properties in the United States, and its product will be limited only by its smelting facilities. The new prospecting shaft will be pushed rapidly forward. No smelting plant in Butte was ever put up in shorter order, nor in a more complete manner than the furnaces of the Butte & Boston company. Their capacity is in the neighborhood of 100 tons per day and the loading of the sixth car of matte began today.

Local Mining News.

Mining matters have been pretty active during the week, the West Granite suit, the Empire-Carlisle consolidation scheme and the Southern Cross and the doings in Iron Mountain furnishing the chief topics of conversation. It is said that R. S. Hale purchased 12,000 shares of Iron Mountain at \$1.05 instead of 5,000 shares as reported yesterday. Among the other men who have been fortunate in this deal is Ed Zimmerman, who purchased a large block at twenty cents per share and sold the same at \$1.05 per share. The stock is now held at \$1.25, and considerable interest is felt in the result of the meeting called to-morrow.

The fourth of July mine in the Okanogan country is again coming into prominence. A car load of ore was received from it at the Helena smelter yesterday. The result of its value will be known in a few days.

The fourth of July is the property which J. K. Pardee and Sam J. Silverman endeavored to sell to a Helena syndicate last spring. Some very fine ore was shown and had been taken from the mine, which was then a mere prospect, but had an excellent showing, the ledge having been explored by cuts for a drainage of \$1,600 feet. The shaft was only down about sixty-five feet.

Capt. Plummer was sent out to examine the property and he reported that the development did not justify the disbursement of so large an amount of money as the owners asked for it, and the deal was dropped. Ever since then, however, the property has been worked, and now it has a shaft down over 200 feet and extensive work done in pushing drifts and levels. The vein mined is not depressed in value, but developed stronger at the bottom than it did in the upper workings. It is understood now that the Helena syndicate is again negotiating to get hold of it.

Great Falls is lucky; that is, if it secures the prize it covets—the Boston & Montana company's smelting and reduction works. There is every reason to believe that Capt. Couch is ambitious to erect a plant as extensive as the Anaconda plant, which represents an outlay of \$8,000,000.

The Butte press made a vigorous effort to convince this company that the Big Hole valley, down the line of the Utah & Northern in Silver Bow county, was the only spot in Montana where a smelter plant, of the proportions that the Boston & Montana company propose building, should be located. It is perfectly true that Butte should strive to get the prize. Helena would like to have it also, but she will be just as well pleased if our northern neighbor captures it, as Helena will be benefited in a commercial sense.

The Three Forks enterprise of the Anaconda company will hardly be inaugurated this season, but that the electric refining works will be erected there is practically settled.

But little change is noted in the price of mining stocks this week. West Granite has slightly advanced, so has Iron Mountain and Southern Cross has no sellers; but remains firm at 20 cents.

In St. Louis last Wednesday West Granite stock came out strong at \$1.12½ when some one showed a mysterious telegram and the market rapidly broke and a flood of stock was let out, 10,000 shares going at \$1.05 and \$1.07½.

Last Wednesday's St. Louis Republic has the following little incident in Frisco stock: A very pretty little boom in Frisco stock was inaugurated and put in force by Leon Goldman yesterday, which was worked so successfully that he pulled the wool over the eyes of two well known brokers and scalped the market for quite a tidy little sum. The market opened at 5c and sold down to 4½ before Goldman took it in hand and ran it up to 6½, buying several thousand shares in so doing. He then built it for all he was worth, and getting the crowd excited, the two brokers above mentioned trailed on it, and he dumped 3,000 shares at 7c. From this it dropped back and closed at 5½ bid, with sellers at 6c. Yesterday was the last day for the stockholders to pay

up their 5c subscriptions or withdraw what they had paid in.

The latest quotations of Montana stocks are as follows:

THE ANACONDA BUDGET.

The Sewer System Nearing Completion—Mr. Daily Slowly Improving.

ANACONDA, Oct. 19.—[Special.]—W. S. Hennig, who was accidentally killed at the lower works last evening, will be buried to-morrow morning, no word having been received from his folks.

The new flue to carry off the fumes and noxious gases at the upper works, will be completed in a few days and connection made with the main flue.

The Binckner furnaces in the north half of the new smelting building at Carroll, is running.

The work of putting in the new sewer on Second street is well under way, and will be completed this month.

The Montana Union railway shops are progressing rapidly; the brick work is completed up to the first story.

The Blue Eddy Nellie mine is shipping three cars of ore per day to Omaha. Three cars of iron ore are shipped each week from here to the East Helena smelter.

The Anaconda democrats are very indignant over the action of the Silver Bow canvassing board in throwing out the Tunnel precinct. Their action is still the all-absorbing topic of conversation.

Marcus Daily continues to improve each day. He has been sick now for two weeks. His physicians and friends here feel very much relieved at the improvement which he has shown the past few days.

SILVER CITY SUGGETS.

County Attorney De Witt Resigns—An Application for Lewis' Release.

BUTTE, Mont., Oct. 19.—[Special.]—County Attorney De Witt resigned his position today and a meeting of the board of county commissioners will be held on Thursday to take action on the resignation. Mr. De Witt resigned on account of his election to the supreme bench, and requests that immediate action be taken on the resignation. Gov. Haldorn, attorney for Frank Lewis, who shot and killed his room-mate, Frank Johnson, a few weeks ago, to-day swore out a writ of habeas corpus which was heard by Judge De Wolfe, sitting in chambers. Mr. Haldorn argued that there was no evidence sufficient to hold Lewis, as the testimony showed self-defense. After listening to the argument Judge De Wolfe reserved his decision until next Saturday.

OUR SISTER REPUBLIC.

Changes in Officials—A Two Million Dollar Official Seal.

CITY OF MEXICO, Oct. 19.—Gen. Topete has been appointed Governor of the northern district of Lower California and Gen. Duval has been appointed governor of the southern district. Gen. Torres has been summoned here. The Two Republics will to-morrow contain an account of a robbery of \$2,500,000 in interior bonds from the fifth section of the national treasury. It is stated a thousand bonds of the nominal value of \$2,500 each, but with
